PROFILE

Engineer turned Product Manager - drawn to the space where strategy, design, and code meet.

I like products that feel *right*, where the roadmap reflects real user needs, the interface respects the user's time, and the engineering decisions hold up under pressure. I'm energised by **discovery and definition** work: framing a problem properly, sketching the first wireframe, shaping an idea into something a team can build and a user can love. I read constantly across product, design, and AI, and I keep one foot in code so I can prototype, pressure-test specs, and stay close to the craft. Most curious right now about **AI-powered products**: where AI creates real value, and where the trend is just noise.

EXPERIENCE

Product Manager

MAR 2025 - PRESENT

Foco Criativo / Movize · Mobility ecosystem · Braga, PT

- Lead the **Movize** mobility ecosystem (the passenger app, the *Movize Connect* portal with GTFS editor, sensors, events and the upcoming Operators module, the operators app, and *movize.pt*), owning the roadmap end-to-end.
- Run **discovery** with stakeholders, validate ideas with users, and translate them into specs, wireframes, and acceptance criteria the team can ship.
- Work cross-functionally with design, engineering, and operations daily, facilitating decisions, unblocking the team, and keeping everyone aligned in Scrum or Kanban while exploring where **AI** genuinely improves the product versus where it's a distraction.

Product Owner

JUL 2024 - FEB 2025

Foco Criativo / Movize · Mobility ecosystem · Braga, PT

- Detailed and refined **epics and user stories** across Movize modules, ensuring each one was ready, clear, and testable before sprint planning.
- Maintained delivery flow through Scrum ceremonies (backlog refinement, planning, reviews, retros) and resolved blockers between business and engineering in real time.
- Acted as the **quality gatekeeper**: validated builds against acceptance criteria and user expectations, coordinated UAT, and kept stakeholders aligned through clear, structured updates.

Software Engineer · Front-End

NOV 2023 - JUN 2024 · STILL SHIPS

Foco Criativo / Movize · Mobility ecosystem · Braga, PT

- Build and maintain **front-end features** across the Movize portal and web app. I still ship code today alongside my product role, which lets me prototype ideas myself and write specs engineers can actually build from.

STRENGTHS

PRODUCT

Roadmap definition · Epic & user story writing · Backlog prioritisation · Stakeholder alignment · Discovery & validation · Release planning · AI product strategy

DESIGN

UI/UX thinking · Wireframing · Prototyping · Information architecture · Accessibility · User research

ENGINEERING

HTML / CSS · JavaScript · React fundamentals · Technical reasoning with engineering teams

AI

Prompt engineering · LLM-based workflows · Generative AI for research, analysis & coding

METHODS

Agile · Scrum · Kanban

TOOLS

Jira · Confluence · Figma · Git · GitHub · ChatGPT · Claude · Gemini · Cursor

LANGUAGES

Portuguese	Native
English	Fluent

EDUCATION

M.Sc. Information Systems Engineering & Management

Universidade do Minho

2019 - 2024 · BRAGA, PT

CONTINUED

Continuous *Learning*

A record of where I've invested time to grow, across product, design, engineering, and AI.

LIVE WORK

Selected projects, case studies & experiments

PROFESSIONAL CERTIFICATES

IBM · COURSERA

AI Product Manager - Professional Certificate

10-course specialisation · Completed Apr 2026

Product Management foundations & strategy · Building AI-Powered Products · Generative AI for Product Managers · Foundation Models & Platforms · Prompt Engineering · Hands-on with DALL-E & ChatGPT.

IBM · COURSERA

Product Owner - Professional Certificate

6-course specialisation · Completed Apr 2025

Scrum framework deep-dive · Product vision & backlog management · User stories & roadmap refinement · Stakeholder communication · Lean startup & release planning · PSPO I exam preparation.

MICROSOFT · COURSERA

UX Design - Professional Certificate

4-course specialisation · Completed Jan 2026

UI/UX fundamentals · Designing for user experience · User interface design & prototyping · Accessibility & collaboration in practice.

INDIVIDUAL COURSES

Introduction to Front-End Development

Meta · 2024

Introduction to Agile Development & Scrum

IBM · 2025

Introduction to Jira

Atlassian-aligned · 2025

Introduction to Artificial Intelligence (AI)

IBM · 2025

Generative AI: Introduction & Applications

IBM · 2025

The Product Owner Profession (Scrum)

SkillUp · 2025

Product Owner: Communications & Stakeholders

SkillUp · 2025

Practice Exam · Scrum.org PSPO I

SkillUp · 2025

Generative AI: Prompt Engineering Basics

IBM · 2026

Generative AI: Foundation Models & Platforms

IBM · 2026

Generative AI: Supercharge Your PM Career

SkillUp · 2026

Product Management: An Introduction

IBM · 2026

PM: Foundations & Stakeholder Collaboration

IBM · 2026

PM: Initial Product Strategy & Plan

IBM · 2026

PM: Developing & Delivering a New Product

IBM · 2026

PM: Building AI-Powered Products
